MEMORANDUM OF UNDERSTANDING

INTRODUCTION

Background

The United States Department of Energy (DOE) is committed to energy use in the American transportation sector that is:

- Less dependent on imported sources;
- More efficient;
- Less environmentally disruptive;
- Sustainable; and

The Energy Policy Act of 1992, supplemented by the 1993 Executive Order 12844: Federal Use of Alternative Fuel Vehicles, and the Clean Air Act Amendments of 1990, all establish guidelines for effecting a favorable energy and environmental situation in the transportation sector. The DOE Clean Cities program is an umbrella to structure and achieve Energy Policy Act program goals and to coordinate objectives of governments and other Federal directives, such as the Clean Air Act.

Purpose

The purpose of this Memorandum of Understanding (MOU) is to set forth the agreements, respective responsibilities, and procedures necessary to carry out the objectives of the DOE Clean Cities program and the local Coalition program which accelerates the introduction and expands the use of alternative fuels, alternative fuel vehicles, idle reduction technologies, hybrids and fuel efficiency.

Authority

This MOU is authorized under the following laws and regulations: Energy Reorganization Act of 1974, which permits DOE to use the facilities of public agencies, requires DOE to consult with the heads of other agencies on the use of their facilities, and allows DOE to enter into cooperative projects with other public and private agencies; the Energy Policy Act of 1992, Section 505, Voluntary Supply Commitments, which requires DOE to obtain voluntary commitments to help achieve replacement fuel goals from fuel suppliers, fleet owners, and vehicle suppliers. Under this MOU, these groups, united with other local stakeholders, signify their commitment to contribute to the goals of the national and local programs.

Policy

Signatories under this MOU undertake their best efforts to achieve the specific goals and objectives set forth in the Coalition Program plan.
